

## **Impacts of Development on Estuarine Systems**

Thursday, **August 24, 2006**

As we develop the coast of South Carolina, estuaries (where the rivers meet the sea) are impacted by habitat loss and changes to the environment. Join us for a discussion of the various impacts development has on the plants and animals of the estuary.

University of South Carolina – Beaufort Campus  
**7:00-9:00pm**

Speaker: Dr. Fred Holland, NOAA Hollings Marine Lab

**For more information contact Al Segars at 843-770-9908**
